

## bt-sculpt®

### HANDHELD MICROCURRENT FACIAL TONING SYSTEM

From microcurrent pioneer Bio-Therapeutic comes a revolutionary new facial toning technology that delivers the ultimate in skin fitness, with professional grade lifting and firming in the convenience of a rechargeable, handheld unit. Our patented, pre-programmed Suzuki Sequencing, the result of 50 years' experience as the leader in microcurrent technology, energizes the skin and safely stimulates the facial topography into a more firm, lifted appearance. The unique and proprietary K4iTEK™ self tensioning probe system allows for application with just one hand, providing a precise, comfortable lifting pressure that's extraordinarily simple to use. Unique to Bio-Therapeutic, four independently controlled energy pathways and ultra pure martensitic stainless steel probe heads deliver the superior coverage previously seen only in our professional models.

#### FEATURES AND SPECIFICATIONS

- Revolutionary and proprietary K4iTEK™ self tensioning probe system allows for comfortable one handed application, while providing optimum lifting pressure.
- Two preset facial programs eliminate guesswork for exceptional results every time.
- True microcurrent with Suzuki Sequencing optimizes wave shape, output levels and frequency on each energy pathway for precise, targeted results without the risk of fatiguing the skin or causing laxity.
- Features the same dual channel/four energy pathway approach as our award winning, professional microcurrent technologies, creating interferential canvassing for superior coverage and enhanced energization of the skin.

2 Modes: LIFT, SKIN

Power Levels: 5

Water Resistance: IPX5

Body Material: Zinc Alloy

Power Source: Rechargeable 3.7 V

Weight: 288.2g (10.16 oz)

Dimensions: 175mm (6.9") L x 53mm (2") W x 55mm (2.2") H

#### INCLUDED
