

THE BUFF BROWZ BROW CARE COLLECTION

The Buff Browz Brow Care Collection is a range of luxurious products that have been designed by our director and a team of pharmacists. The range is designed to prepare the clients skin and hair beautifully prior to their maintenance procedure in order to achieve and maintain the best results possible. The range is suitable for all skin types and is loved by both artists and clients.'

THE BUFF BROWZ BROW CARE COLLECTION

RESTORE MASQUE

Introducing the all-new and fabulous Buff Browz Restore Masque. This sensational conditioning treatment has been custom-designed by our director and her pharmaceuticals team to the highest of standards so that artists can provide a heavenly treatment for their clients to optimise their results and ensure 100% client satisfaction. This luxurious masque can be used to remove stubborn hybrid stains but is more importantly designed to restore optimum hair health post any procedure. Our Restore Masque lies within an acidic region to ensure that the cuticles are resealed and kept flat to lock in moisture and help restore and maintain a beautiful shine to the hairs. It is a nutrient powerhouse and contains several ingredients to ensure that the hair's structure remains strong and undamaged:

Niacinamide is the perfect antioxidant for both the skin and the hair. It aids hydration and minimises any redness and inflammation. It also aids circulation which is key for bringing oxygen and nutrients to the hair follicles.

Rose Water boasts antibacterial properties and reduces any redness in the skin.

Isopropyl Myristate encourages the hair to absorb all of the nutrients as well as have a moisturising and softening effect.

Panthenol/Vitamin B5 is a great amino acid which aids hair regeneration and hydration.

Hydrolyzed Wheat Protein is a key ingredient to aid regeneration and rebuild the keratin structure.

Vitamin E is a top-rated antioxidant to aid protection.

Glycerine aids moisture and hydration and flattens and seals the hair cuticles.

Hyaluronic Acid locks in moisture within both the hair and the skin.

THE BUFF BROWZ BROW CARE COLLECTION

BROW POLISH

The Buff Browz Brow Polish is a sensational apricot kernel scrub that gently, but effectively removes dead skin cells.

It is suitable for all skin types and should be massaged into the brows manually or with a soft brush. It has been perfectly designed to prepare the skin appropriately prior to a tinting or a staining procedure to allow for a thorough skin grab. It also has many nutritional benefits for both the skin and hair including:

Niacinamide: The perfect antioxidant for both the skin and the hair. It aids hydration and minimises any redness and inflammation. It also aids circulation which is key for bringing oxygen and nutrients to the hair follicles.

Panthenol/Vitamin B5: A great amino acid which aids hair regeneration and hydration.

Vitamin E: A top-rated antioxidant to aid protection.

Hyaluronic Acid: locks in moisture within both the hair and the skin.

BROW CARE COLLECTION

PURIFY

The long-awaited Buff Browz Purify Shampoo is finally here. This glorious detoxing foam has been beautifully composed for universal use across the world of eyebrow maintenance. It has a neutral pH of 7 which allows you to use it throughout the procedure and in between steps without disruption to skin, hair or how the active products perform. The Saline, Niacinamide and Citric Acid all work together to completely detox the hairs and skin of any impurities without causing any sensitivity. Saline acts as a disinfectant to minimise any risk of infection or cross-contamination, but it also increases the oxidation of fatty acids that sit on the skin and within the hairs, thus causing them to break down. Niacinamide is the perfect antioxidant for both the skin and the hair. As well as detoxing the skin and hair, it aids hydration and minimises any redness and inflammation. It also aids circulation which is key for bringing oxygen and nutrients to the hair follicles. Citric Acid also contributes to detoxification, but also gently exfoliates the skin and helps to keep the hair shiny and well-hydrated. Finally, Purify also contains Hyaluronic Acid which we all know is a key ingredient for optimum skin and hair health.

THE BUFF BROWZ BROW CARE COLLECTION

DETOX

Our Detox liquid is a beautifully sourced and composed Saline Water. Not only does Saline act as a disinfectant to minimise any risk of infection or cross-contamination, but it also increases the oxidation of fatty acids that sit on the skin and within the hairs, thus causing them to break down. Detox also contains Citric Acid which also contributes to detoxification, but also gently exfoliates the skin and helps to keep the hair shiny and well-hydrated.
