

# MATERIAL SAFETY DATA SHEET

This information sheet is in the format as devised for General Products under the The General Product Safety Regulations 2005

Company name: Daisy's Nail Company Limited

Contact details: tel. 03337720965; Address: Floor 6, Towerpoint, 44 North Road BN1 1YR East Sussex, U.K. ; Email: [contact@thegelbottle.com](mailto:contact@thegelbottle.com)

## 1.1. Identification of the substance or preparation

Product name CUTICLE OIL – all kinds Product code PS CO 3000

## 1.2. Use of substance/preparation

Olive care the skin around the nail

## 1.4. Emergency telephone

111 (emergency number)

## Section 2: Hazards Identification

### *Explication of special hazards for human health and environment*

Not classified as dangerous according to directive 1999/45/EEC

## Section 3: Composition/ Information of ingredients

### 3.1. Substance

Not include

### 3.2. Composition

This product is not considered dangerous and contains the following substance:

#### Name % Cas No EINECS

Mineral Oil 50,0-60,0% 8042-47-5 232-455-8 Paraffinum Liquidum 30,0-38,0% 8012-95-1 232-384-2  
Prunus Amygdalus Dulcis (Sweet Almond) Oil 5,0-8,0% 8007-69-0 273-313-5 Prunus Persica (Peach)  
Kernel Oil 3,0-3,4% 8002-78-6 N/E

1 / 5

## Section 4: First aid measures

### **General information**

Remove contaminated soaked clothing immediately. Take away from danger area and lay down affected person.

***First aid for skin:***

No data available.

***First aid for eye:***

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist.

***First aid for ingestion:***

Do not include vomiting. Summon a doctor immediately.

**Section 5: Fire-fighting Measures*****Extinguishing media:***

Use carbon dioxide or dry chemical for small fires; aqueous foam for large fires.

***Extinguishing media which must not be used for safety reasons:***

Full water jet.

***Special exposure hazards arriving from substance or preparation itself, combustion products, resulting gases:***

Fire may produce:

Carbon monoxide and carbon dioxide.

***Special protective equipment for fire-fighters:***

Use breathing apparatus without dependent air supply. Protective suit.

***Additional information***

Cool containers at risk water spray jet. Fire residues and contaminated firefighting water must be disposed of in accordance with the local regulations.

**Section 6: Accidental release measures****Personal precautions**

*Attention:* Hazard of skidding

Keep away from sources of ignition-no smoking

Ensure adequate ventilation

**Waste disposal methods**

Shovel into suitable container for disposal.

2 /5

**Section 7: Handling and storage****7.1. Handling**

*Advice on safe handling*

Ensure adequate ventilation. Avoid contact with eyes and clothing.

*Advice on protection against fire and explosion*

Keep away from heat and sources of ignition.

## **7.2. Storage**

Store in well-ventilated area. Keep containers closed when not in use. Store away from initiation sources. All equipment should be grounded. Incompatible with oxidizing agents. Keep away from heat and sources of ignition.

## **7.3. Specific use(s)**

Body oil

## **Section 8: Exposure controls/ personal protection**

### **8.1. Exposure limit values**

Not applicable

### **8.2. Exposure controls**

Should follow the general rules of hygiene.

#### **8.2.1. Occupational exposure controls**

Ensure adequate ventilation, especially in confined areas.

##### ***Protective and hygiene measures***

Keep away from food, drink and animal feeding stuffs.

##### ***Respiratory protection***

No personal respiratory protective equipment normally required.

##### ***Hand protection***

Protective gloves resistant to chemicals made off natural-rubber latex.

##### ***Eye protection***

Safety goggles with side protection.

##### ***Other protective equipment***

Impervious clothing and boots should be worn. Eye bath and safety shower should be provided.

##### ***Hygienic practices***

Good personal hygiene practices are required at all times when handling chemicals. These practices include, but are not limited to, washing when safety equipment is removed, at the end of each shift or when going on breaks and especially if contamination occurs.

#### **8.2.2. Environmental exposure controls**

No data available

3 /5

## **Section 9: Physical and chemical properties**

### **9.1. General Information**

***Appearance*** liquid

***Odor & Odor Threshold*** characteristic

***Color*** Colour

### **9.2. Important health, safety and environmental information**

No data available

### **9.2. Other information**

No data available.

## Section 10: Stability and reactivity

### **10.1. Conditions to Avoid:**

Sparks, open flame.

### **10.2. Materials to Avoid:**

Strong oxidizing agents.

### **10.3. Hazardous decomposition products:**

Carbon monoxide and carbon dioxide.

## Section 11: Toxicological information

### ***Empirical data of effects on humans***

A longer or repeated contact may lead to irritation of eyes mucous membranes. Prolonged skin contact may cause irritation.

## Section 12: Ecological Information

### **12.1. Ecotoxicity**

Do not flush into surface water or sanitary sewer system. Slightly water hazardous.

### **12.2. Mobility**

No data available

### **12.3. Persistence and degradability**

No data available

### **12.4. Bioaccumulative potential**

No data available.

4 /5

### **12.5. Results of PBT assessment**

No data available.

### **12.6. Other adverse effects**

No data available.

## Section 13: Disposal considerations

Incinerate in a furnace where permitted under national and local regulations. Any reject of this product in the sewer or stream must be avoided.

## Section 14: Transport information

No hazardous material as defined by the transport regulations.

### **Section 15: Regulatory information**

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006.
