

SAFETY DATA SHEET

1. Product and Company Identification

Product Name: Hot Wax Pellets (750g)

Supplier: Hive of Beauty Limited
London
NW8 6EP
UK

Tel: +44 (0) 845 450 4802

Email: info@hiveofbeauty.com

2. Composition/Information on Ingredients

Ingredient	CAS NO.	EINICS NO.	R Phrases
Colophony (Rosin)	8050-09-7	232-475-7	Skin Sens:1
			H317, Xi, R43
Cera Microcrystallina	63231-60-7	264-038-1	
Butylated Hydroxy Toluene	128-37-0	204-881-4	

For full text of risk phrases above see section 16.

3. Hazard Identification

Health: Unlikely to cause eye irritation
Unlikely to cause skin irritation
Not volatile. It is not likely to be an inhalation hazard at normal ambient temperatures. If overheated, fumes and vapours are irritating to the breathing passages and lungs. Ingestion is likely to cause adverse systemic health effects.

Environmental: Although no specific ecological hazards are expected and bioaccumulation is unlikely, spillage into the environment should always be avoided.

Physical/Chemical: Not applicable

4. First Aid Measures

Inhalation: Remove the affected person to fresh air. If recovery is not rapid, obtain medical attention.

Skin Contact: Wash the affected parts of the body with soap and water. No emergency measures are necessary but if adverse skin effects follow, refer for medical attention.

Ingestion: Do not induce vomiting. No emergency measures are needed but if adverse health effects follow, refer for medical attention.

Eye Contact: Flush eyes immediately with fresh water for at least 15 minutes while holding the eyelids open. No emergency measures are necessary but if adverse eye effects follow, refer to medical attention.

Additional Information: As wax is normally handled in molten state at temperatures, the main health hazard is skin burns from splashes. The area should be cooled immediately under running water for up to 10 minutes. In case of circumferential burns splitting of the wax ring may be considered to prevent tourniquet effect. Refer to medical attention.

SAFETY DATA SHEET

5. Fire Fighting Measures

Extinguishing Media: Foam, dry chemical, carbon dioxide, water mist
Exposure Hazards: Slight flammability hazard when exposed to heat or flame.

Protective Equipment for Fire Fighters:
Use self-contained breathing equipment when fighting fire in confined spaces.

6. Accidental Release Measures

Personal Precautions: Surfaces may become slippery after spillage.
Environmental Precautions: Water may be used to flush spills away from sources of ignition. Do not allow the product to enter public drainage system or open water course.
Clean Up Methods: Absorb and scrape up.

7. Handling & Storage

Handling: Avoid inhalation of vapour, mist or fumes.
Do not wear contaminated clothing. Recommended temperature for handling is 60-70°C.
Storage: Keep containers tightly closed.

8. Exposure controls/personal protection

Engineering Measures: No special measures needed.
Respiratory Protection: Inhalation of the vapour, fumes or mists should be avoided by safe working practices and good ventilation.
Eye Protection: No special precautions are needed beyond clean working conditions and safe handling practices.
Hand/Skin Protection: No special precautions are needed beyond clean working conditions and safe handling practices. PVC or nitrile gloves may be suitable.

9. Physical and chemical properties

Appearance/Odour: Tan pellets/slight of rosin
Physical State: Waxy solid
Colour: Tan / Orange
Relative Density@ 15°C: Approx 0.90
Boiling Range: Initial boiling point > 300°C
Solubility in Water: Insoluble
pH: Neutral
Flash Point: >200°C (ASTM D92, COC)
Melting Point: 62 - 73°C

10. Stability and reactivity

Stability: May react with strong oxidising agents, especially at high temperatures.

11. Toxicological information

Inhalation: Not volatile. It is not likely to be an inhalation hazard at normal ambient temperatures. If overheated, fumes and vapours are irritating to the breathing passages and lungs.
Skin Contact: Unlikely to cause skin irritation.

SAFETY DATA SHEET

Eye Contact: Unlikely to cause eye irritation.
Ingestion: Ingestion is unlikely to cause adverse systematic health effects.
Other: Waxes based on Petroleum are generally regarded as non-toxic, relatively harmless and not irritating under normal usage.

12. Ecological information

Eco Toxicity: Not expected to be dangerous for the aquatic environment.
Degradability: Not readily biodegradable.

13. Disposal Considerations

Methods of disposal: Dispose of container and unused contents in accordance with local authority regulations.

14. Transport Information

UN: Not classified
RID/ADR: Not classified
IMO: Not classified
IATA/ICAO: Not classified

15. Regulatory Information

Hazards: N/A
Symbols: N/A
Risk Phrases: N/A
Safety Phrases: N/A

16. Other Information

The information contained herein is for health and safety guidance only and does not constitute a product specification. It is, to the best of our knowledge and belief accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material. It is the responsibility of the user to comply with all applicable laws and regulations.

Text of risk phrases mentioned in section 3
H6317: may cause an allergic skin reaction

Skin sens: skin sensitization
Xi: Irritant
R43 : May cause sensitization by skin contact.
