

THE BUFF BROWZ LAMINATION TGA SYSTEM

The Buff Browz TGA system is a traditional lamination system composed of the classic Ammonium Thioglycolate Acid formula. It is very fast acting and is great for experienced artists who prefer to work with speed and is particularly good for extremely coarse hair types.

Timings

Fine: 2-3 minutes

Normal: 3-4 minutes

Coarse: 4-5 minutes

PLEASE NOTE that these are our personal advised timings and are a guideline, but they may need to be amended from time to time as every client is different.
