02476361619

Product Name: Cedarwood Oil

Composition/Information on ingredients:

Chemical: Cedarwood Oil
ID CAS No: 8000-27-9

Hazards Identification

General:

When undiluted can be irritating to skin. Irritating to skin and eyes upon excessive inhalation. Combustible material which can sustain fire.

Hazard Symbol: Xn, Harmful

Risk Phrases: R65, Harmful – May cause lung damage if swallowed

Environment: When spilled can contaminate soil, ground and surface water.

First Aid Measures

Inhalation: Remove into fresh air. If irritation persists seek medical advice
Eyes: Flush immediately with water for at least 15 minutes. If irritation persists seek medical advice.
Ingestion: Rinse mouth with water. Do NOT induce vomiting. Seek medical advice.

Fire Measures

Use extinguishing measures. Carbon Dioxide, Dry Chemical or Blanket.

Accidental Release Measures

Personal Precautions: Self contained breathing apparatus is recommended in case of a major spill

Spillage: Remove ignition sources. Avoid inhalation and contain immediately using sand or inert powder and dispose according to regulations.

Environmental: Keep away from drains, surface or ground water and soil.

Handling & Storage

Handling: Apply safe methods and product should only be used by a qualified person.

Storage: Store in a cool, dry area with good ventilation. Keep away from heat sources and avoid plastic or uncoated metal containers.

Fire Protection: Keep away from Ignition sources and naked flame.

Physical & Chemical Properties

Appearance: Clear pale yellow to yellow liquid

Viscosity: Mobile liquid

Flash Point: 85 degrees C

Stability & Reactivity

Reactivity: No significant reactivity hazard. Avoid contact with strong Acids or Alkalis/oxidising agents

Decomposition: Carbon Monoxide may be formed during combustion

Toxicological Information

This material is according to EEC Directive classified as: Safe when used as directed

Disposal Considerations

Dispose of as local regulations. Do not put into drainage systems or the environment.

Regulatory Information

Hazard Symbol: Xn Harmful

Risk Phrases: R65, Harmful: May cause lung damage if swallowed.

Other Information

Conc % limits: XnR65 = 16.67%
