#### 16. FURTHER INFORMATION

The information supplied in this document has been compiled based on the most qualified existing sources and on the best available data, in accordance with the existing legal requirements concerning information, packaging and labelling chemical products. This does not mean that the information is definitive in every case. It is responsibility of the user to determine whether this safety data sheet meets the requirements for the specific application desired by the user.

We hereby certify that the above mentioned product complies with all E.U. specifications and requirements for cosmetic products.

According to the Regulation (EC) № 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH):

- Chapter 1,Aim, scope and application, article 2, point 6:

The provisions of Title IV (Information in the supply chain) shall not apply to the following preparations in the finished state, intended for the final user:

(a) medicinal products for human or veterinary use, within the scope of Regulation (EC) No 726/2004 and Directive 2001/82/EC and as defined in Directive 2001/83/EC:

(b) cosmetic products as defined in Directive 76/768/EEC;

(c) medical devices which are invasive or used in direct physical contact with the human body in so far as Community measures lay down provisions for the classification and labelling of dangerous substances and preparations which ensure the same level of information provision and protection as Directive 1999/45/EC;

(d) food or feedingstuffs in accordance with Regulation (EC) No 178/2002 including use:

i) as a food additive in foodstuffs within the scope of Directive 89/107/EEC;

ii) as a flavouring in foodstuffs within the scope of Directive 88/388/EEC and Decision 1999/217/EC;

iii) as an additive in feedingstuffs within the scope of Regulation (EC) No 1831/2003;

iv) in animal nutrition within the scope of Directive 82/471/EEC.

According to the Regulation (EC) № 1272:2008 of 16th of December 2008:

## - Point 40:

The two instruments foreseen by this Regulation to be used to communicate the hazards of substances and mixtures are labels and the safety data sheets provided for in Regulation (EC) No 1907/2006. Of these two, the label is the only tool for communication to consumers, but it may also serve to draw the attention of workers to the more comprehensive information on substances or mixtures provided in safety data sheets. Since the provisions on safety data sheets are included in Regulation (EC) No 1907/2006 which uses the safety data sheet as the main communication tool within the supply chain of substances, it is appropriate not to duplicate the same provisions in this Regulation.

- Title 1, General Issues, Article 1, Purpose and scope, point 5:

This Regulation shall not apply to substances and mixtures in the following forms, which are in the finished state, intended for the final user:

(a) medicinal products as defined in Directive 2001/83/EC;

(b) veterinary medicinal products as defined in Directive 2001/82/EC;

(c) cosmetic products as defined in Directive 76/768/EEC;
