

SAFETY DATA SHEET

1. Substance/preparation and company name.

Product: Marvellash Eyelash Extension Adhesive Remover
Code: 0226311
Company: Original Additions, Bullsbrook Road, Hayes, Middlesex, UB40UJ.
0208 5739907
Date of issue: 26/7/10

2. Composition/information on ingredients.

Ingredient	CAS No.	% Haz.	Risk Phrases
Acetone	67-64-1	25-50	F:R11 Xi:R36 R66R67
Nitromethane	75-52-5	25-50	R5, 10 Xn:R22

3. Hazards identification.

HAZARD DATA: Highly flammable liquid.
Irritating to skin. Use in a well ventilated area.

HEALTH HAZARD INFORMATION: Liquid and vapour are irritating to eyes, & respiratory system. Do not ingest.

4. First-aid measures.

Eyes: Holding the eyelids apart, irrigate thoroughly with water for at least 15 minutes. Obtain medical attention if irritation persists or if tissue damage is evident.

Lungs: High concentrations may cause drowsiness and narcosis. Remove from exposure immediately. If necessary, place in the recovery position. Commence artificial respiration if subject is not breathing. Obtain medical attention.

Mouth: Wash out mouth thoroughly with water. Give plenty of liquid to drink. Obtain medical attention.

Skin: Wash off skin thoroughly with soap and water. Remove contaminated clothing and wash before re-use. In severe cases or if irritation occurs obtain medical attention.

5. Fire fighting measures.

FIRE AND EXPLOSION DATA: Highly Flammable Liquid
Flash Point: 29°C (85°F)

EXTINGUISHING MEDIA: Use carbon dioxide, dry chemical powder or foam. **Do Not Use Water.**

6. Accidental release measures.

Precautions: Shut off all sources of ignition.
Inform others to keep a safe distance.
Wear appropriate protective clothing.

Absorb spills onto an inert absorbent, transfer to container and arrange removal by disposal company. Ventilate area to dispel residual vapour. For large spillages liquids should be contained with sand or earth and both liquids and solids transferred to salvage containers. Any residue should be treated as for small spillages. Do not allow to enter sewers or water course. If it does, inform fire services and water authorities. Contaminated clean up materials and residual product should be disposed of according to local authority regulations

7. Handling and storage.

Handling: As required by the Highly Flammable Liquids and Liquefied Petroleum Gases Regulations 1972. In accordance with HSE guidance note CS17. Plant and vessels should be effectively bonded and earthed to prevent sparks arising from static electricity. All electrical equipment must be flameproofed.

Precautions:	Gloves:	Nitrile
	Eye protection:	Goggles or face shield
	Respirator:	Wear respiratory protection when risk of exposure to high vapour concentrations.

Storage: Store in earthed containers in a cool, flameproofed area.
Avoid all sources of heat and ignition and keep out of direct sunlight.

8. Exposure controls and personal protection.

No exposure limits established. Avoid eye contact with the product. Avoid contact through inhalation and ingestion. Gloves and eye protection are recommended when handling larger quantities of the product, or when prolonged contact is unavoidable. Respiratory protection is recommended when vapour concentrations are likely to be high.

9. Physical and chemical properties.

Colour:	Colourless liquid, to match standard.
Odour:	Characteristic to standard.
Appearance:	Non viscous liquid.
Flash Point:	29°C (85°F)

10. Stability and reactivity.

STABILITY:	Stable under recommended storage conditions.
------------	--

CONDITIONS TO AVOID:	Sources of heat and ignition.
----------------------	-------------------------------

11. Toxicological information.

No specific toxicological information exists for this product, but it is advisable to avoid excessive exposure through inhalation, ingestion, skin or eye contact with the product.

12. Ecological information.

No specific information is available on the biodegradability of this preparation. It is a solvent based product that may or may not be readily miscible with water. Its effects on the environment have not been established. The product must not be allowed to enter water courses or sewers. If this should occur, inform the local water authority and fire services.

13. Disposal considerations.

Empty packaging should be drained and rinsed, before recycling as appropriate. Any residual waste preparation should be disposed of in a safe manner. Disposal should be in accordance with local authority regulations. Product must not be emptied down drains or into water courses.

14. Transport information.

UN 1266, Perfumery Products
Class 3
PG1
Flash point 29°C

15. Regulatory information.

Risk Phrases

R10	Flammable
R36	Irritating to eyes
R66	Repeated exposure may cause skin dryness or cracking
R67	Vapours may cause drowsiness and dizziness

Safety Phrases

S(2)	Keep out of the reach of children
