

## MATERIAL SAFETY DATA SHEET

### 1. Identification of the Substance and of the Company

Identification of the product: EYE LASH GLUE

Packaging presentation: Plastic bottle of 20 ml of capacity

Identification of the company:

### 2. Hazardous Ingredients:

Chemical characteristics : Liquid

Components: Latex, Ammonium

### 3. Hazard Identification

Irritant eyes and skin

### 4. First Aid Measures

Skin: Washing affected area with plenty of water

Eyes: rinse immediately with plenty of water and seek medical advice

### 5. Special Fire Fighting Procedures

Extinguishing media: CO<sub>2</sub>

Not special fire fighting procedures

### 6. Precautions in Case of Release or Spill

Pick up with absorbent material. Rinse with water

### 7. Storage and Handling

Keep containers tightly closed, cool and dry away.

### 8. Exposure Limits and Personal Protection Measures

Avoid eye and skin contact

Use gloves

## SAFETY DATA SHEET

## EYE LASH GLUE

**9. Physical and Chemical Data**

Description: Liquid

pH: 9.5 – 11.5

Non volatile matter 48% – 50%

**10. Stability and Reactivity**

Stable (heat and contamination could cause decomposition NO<sub>x</sub>)

**11. Toxicological Information**

Not special toxicological studies available for this product

**12. Ecological Information**

Not special ecological studies available for this product

**13. Disposal Considerations**

See local regulations

**14. Regulatory Information**

Keep out of children.

**16. Other Information**

Date of issue: October 2003

Revision: 0
